

For the past 5 years, we have been using the online program, Acellus, to provide core subjects (language arts, reading, math) to students whose parents would like them to complete those subjects while here during the day. Over this past year, we've been researching other programs and we've decided to make the switch to Miacademy (pronounced Me Academy). In comparison to Acellus, it's much more updated and the lessons are far more engaging. Students will still have the opportunity to complete work at home, if they choose. We can also add additional courses that interest them like another language, social studies, science and others. We only monitor Math and Reading/LA, so parents would be involved with those other courses if selected. We will still offer individual tutoring for those that need it.

How it works

Just like "Small Group Tutoring" this year, up to 4 students at a time will be called out of their regular class for "Small Group Miacademy"; 1-2 times per day, depending on their needs and whether or not they are using the program at home. The teacher will prepare materials for each subject, monitor their progress and be there for any questions or extra support.

Small Group Miacademy will be available for Primary B, C, Tween and Teen classes. Primary A will have these core subjects in their classroom. Registration options are available for both Language Arts/Reading AND/OR Math. Monthly tuition may be adjusted if your child only needs to be pulled from class once a day instead of twice a day; Mrs. Lisa will consult with parents individually.

Prices (no sibling discount)

A higher quality product costs a bit more; MiAcademy monthly membership fee is \$36 per student, compared to Acellus at \$25/month. In addition, there is a lot more printing involved, so we need to adjust the prices accordingly. The prices below include the membership fee, which we will pay directly to Miacademy.

1 day/week: \$120/month (\$80/month for each additional day)

2 days/week: \$200/month

3 days/week: \$280/month

4 days/week: \$340/month

How to Register: Login, go to the Registration Tab, then Registration Tables. To sign-up, add your child to the "class" on the website. Scroll down to locate Small Group Language Arts and Math (Miacademy) and add your child to the class by clicking their name and then click the REGISTER button. Be sure to add your child to each day of the week that you want them to participate; this allows us to have a class list and limit the number of students registered per day.
